EDUCATION

2021-2025

Polytechnic University of the Philippines
Bachelor of Science in Information and Technology

EXPERIENCE

Polytechnic University of the Philippines Intern– Project Lead/BA/Lead Dev/Full-Stack Feb 2025 - June 2025

- Led the design, development, and delivery of a full-stack system while managing project scope, requirements analysis, and team coordination from end to end.

Software Research Group – Project Manager/Front end Developer Oct 2024 - Feb 2025

- Led a university-used system project, managing timelines, developing a Flutter-based UI, and promoting Agile practices through a team seminar.

Capstone Project – Project Manager/Front end Developer Aug 2024 - Feb 2025

- Directed a full-stack project by managing tasks, leading front-end development, and ensuring requirements were met through business analysis.

PROJECTS

QR-Attendance System | Django, HTML, CSS, JS, Bootstrap, Git, Postgres 2025 - 2025

- Engineered a full-stack, QR-based attendance system using Django and Postgres, implementing automated logging and comprehensive admin dashboards to streamline attendance tracking.

Alumni Tracker System | Django, HTML, CSS, JS , Bootstrap, Git, Jira 2025 - 2025

- Served as Project Manager and Lead Developer for the official PUPQC Alumni Tracker System. I managed project timelines using Jira and directed requirements analysis, while personally driving front-end development for a responsive, user-friendly interface. Also contributed to back-end logic using Django to ensure seamless data flow and functionality.

GFMIC Membership | Django, HTML, CSS, JS , Bootstrap, Git, Jira 2025 - 2025

- Developed the front-end interface for the GFMIC membership platform, enhancing the process for managing member registrations and records, resulting in a more efficient administrative workflow.

GFMIC Membership Application | Flutter Dart, API, Jira 2025 - 2025

- Built a cross-platform mobile front-end using Flutter/Dart and RESTful APIs for GFMIC, providing members with a dedicated mobile application for managing their personal records and engagement.

PUPQC-CRGS | Laravel, Php, HTML, CSS, JS , Bootstrap, Git, Jira 2025 - 2025

- Contributed as a Front-End Developer to the PUPQC Cashier System (Laravel/PHP), successfully optimizing the user interface to improve the speed and accuracy of financial transaction processing.

PUPQC-Accreditation | Googlesite 2025 - 2025

- Designed and deployed a public-facing website using Googlesite to effectively showcase PUPQC's campus offerings and achievements, supporting the university's accreditation efforts.

DALAY | Laravel, Javascript, Bootstrap, Git 2024 - 2025

- Documented DALAY System, an automated system for barangays in the Philippines to manage citizen profiles, IDs, certifications, blotter cases, and local services efficiently.

- Patient Management System** |Laravel, Javascript, Bootstrap, Git

2024 - 2025

 - Developed a full-featured hospital system for managing patient records, emergency admission, appointments, and doctor assessments.
- SmartStudy App** |Flutterflow, Firebase

2023 - 2024

 - Designed a mobile app for students with reviewer creation, study timers, and statistic tracking.
- Algoritees** |Laravel, Javascript, Bootstrap, Git

2024 - 2024

 - Designed a web-based platform for algorithm-themed merchandise, integrating product listings and checkout.
- Payroll Management System** |Laravel, Javascript, Bootstrap, Git

2022 - 2023

 - Created a system to automate employee payroll, including salary computation, deductions, and report generation.

CERTIFICATES

Programming for Intermediate Users Using Python (12/2022 – 12/2022)
Design App Completion (01/2024 – 01/2024)
Business Analysis & Process Management (06/2024 – 06/2024)
mabl skill Certification: Foundations (2024 – 2024)
Fortinet - Getting Started in Cybersecurity 2.0 (2024 – 2024)
Google Nemesio Prudente International Research Conference (2024-2024)
Foundation of Project Management (06/2024 – 06/2024)
Google Project Initiation: Starting a Successful Project (08/2024 – 08/2024)
Google Project Planning: Putting it all Together (09/2024 – 09/2024)
Responsive Web Design (10/06/2025)
Javascript Algorithm and Data Structures (10/06/2025)

LICENSE / ELIGIBILITY

- **Civil Service Eligibility – Professional Level**
Issued by the Civil Service Commission (CSC)

SKILLS

- | | |
|--------------------------------|---------------------|
| • Teamwork and Collaboration | • Critical Thinking |
| • Adaptability and Flexibility | • Communication |
| • Problem Solving | |

Technical Skills

- **Languages & Frameworks:** Python (Django), PHP (Laravel), JavaScript, HTML, CSS, Bootstrap
- **Databases:** PostgreSQL, MySQL, MongoDB
- **Tools & Platforms:** GitHub, Jira, RESTful API Development, Flutterflow, Firebase
